# EMOtion Days

6<sup>th</sup> – 8<sup>th</sup> November 2013 in Schorndorf, Germany

Realise your potential at our EMOtion Days and rub shoulders with the latest advanced machine tools (including 4 models that were premiered at EMO 2013) being showcased at our 1300m<sup>2</sup> World Application Centre.

With innovation and improvement being constant themes during our event, we will show you how to optimize your manufacturing processes and maintain your competitive edge.

In addition to exciting and challenging live machining demonstrations, there's also a planned programme of keynote presentations covering the latest trends and best practice in milling, EDM, laser, automation and customer service support.

It's an event not to be missed and we look forward to seeing you there – and then.

## Experience and inform

### Marketplace:

See our machines in action at our World Application Centre. Our experts will be on-hand to answer your questions and address any specific issues you may have.

### Speaker's Corner:

Find out all you need to know about the issues that matter through a number of short presentations (available in different languages) delivered by our experts and customers.

The short presentations will be translated simultaneously:

#### Wednesday, 6<sup>th</sup>

German  
Italian  
Spanish

#### Thursday, 7<sup>th</sup>

German  
English  
French

#### Friday, 8<sup>th</sup>

German  
Polish  
Czech

# Agenda

---

08:30 a.m.	Arrival / Welcome & Coffee
09:00 a.m.	Presentation of the World Application Centre (Guided Tour)
10:00 a.m.	Welcome to EM0tion Days 2013 by Bernhard Kasper (Head of Market Region Europe) and Heiko Benz (Managing Director Agie Charmilles GmbH Germany)
10:15 a.m.	Phase 1 of <b>"Speaker's Corner"</b> – (approximately 10 short presentations) Participants can visit both "Speaker's Corner" and <b>"Marketplace"</b>
12:30 p.m.	Lunch Buffet
01:30 p.m.	Phase 2 <b>"Speaker's Corner"</b> – (approximately 10 short presentations) / <b>"Marketplace"</b>
05:00 p.m.	Close

# Subjects

---

**Success stories:** See how our customers – MTU AeroEngines, Braun und TP-Link – have improved their competitiveness through the innovative use of our technologies.

<b>IVU / IVU advanced (Integrated Vision Unit)</b>	An integrated, optical measuring system on our EDM machines for improved pre-setting measurement and in-process control.
<b>Laser texturing</b>	Create innovative and distinctive surface textures and finishes quickly and easily.
<b>Automation</b>	Increase productivity by combining milling and EDM operations in flexible manufacturing cell.
<b>Oiltech</b>	Reduce the time taken for polishing parts by using oil as a dielectric.
<b>Carbide milling</b>	Revolutionise the production of carbide punches and carbide bending molds.
<b>Customer Services</b>	Ensure improved productivity and performance by using our range of Customer Services.

# World Premiers

---

A giant leap forward in wire EDM machining cutting speeds and surface finishes, irrespective of workpiece material or taper requirements.

Integration of high-capacity tool changers significantly increases the productivity and manufacturing flexibility of these die-sink machines.

This compact, high-performance three- or five-axis machining centre combines exceptional power within the smallest footprint to deliver high precision and ensure exceptional surface quality.

This versatile, best-in-class 5-axis milling machine provides precision component manufacturers with cost-effective, high-performance 5-axis machining capabilities.
